## COMING SOON:
# New Applications to Support the Way We Work

We are excited to introduce three new apps, through our WorkWell business transformation, that will make our team members' day-to-day work lives easier and more seamless.

## PLANNED APP TRANSITION DATES

Workday, UKG, Strata and other planned applications will ultimately replace existing programs and apps, allowing Wellstar to move to fewer, more intuitive platforms, streamlining the way we work.

### strata

**Go-live November 6, 2023**

Strata is an enterprise-wide single source of truth for financial planning, cost accounting, revenue modeling and reporting and analytics.

### ÜKG

**Go-live December 24, 2023**

UKG is an intuitive scheduling system that will allow team members and managers to manage schedules, complete all timekeeping attestations and more. Managers can also use UKG to manage time cards.

### workday.

**Go-live January 1, 2024**

Workday is a cloud-based software package that will allow team members to request time off, manage the performance review process, take computer-based-learnings and more, all in one convenient location.

**Wellstar**
