## New Hire Pre-Placement Consent and Screening Verification

First & Last Name:	
Employee ID #:	Orientation Date:
Hospital/Facility:	Department/Role:

Welcome to the Wellstar Employee Health Pre-Placement Assessment. Your health assessment today will take approximately 2 hours to complete. You will be seen by an Employee Health Nurse who will review your baseline health assessment and give you further instructions on how to complete the Employee Health requirements.

I give my permission to Wellstar Employee Health to perform my Pre-Placement Health Assessment as a part of my requirements for employment at Wellstar Health System. I understand that my job office is contingent upon the completion of all Employee Health requirements and medical clearance by Employee Health.

## Reporting Communicable Disease\*

To: Wellstar Health System Employees  
From: Infection Control and Employee Health  
RE: Reporting Communicable Disease

It is required by law that all Georgia Physician, Laboratories, and other Health Care Providers report any Communicable Disease to their County Health Department or District Health Office.

Wellstar Communicable Disease Policy requires that all communicable disease be reported to Employee Health at the time you are exposed and/or become symptomatic. If work restrictions are indicated, employees are required to be cleared by Human Resources Benefits before returning to work if you have taken an approved Leave of Absence.

Examples to Reportable Communicable Disease are as follows:

- Hepatitis A, B, or C
- Chickenpox
- Measles, Mumps or Rubella
- Influenza
- SARS/Covid
- Neisseria Meningitis
- Scabies/Lice
- Conjunctivitis
- Active TB
- Bordetella Pertussis

Please refer to PolicyTech on eSource for Infection Prevention information.  
You may also contact your hospital's employee health office for any questions.

Thank you,

Employee Health Services  
Infection Prevention Department

## TB Follow-up Requirements\*

Your baseline health screening today will include a TB blood test. Per Wellstar policy, if the results of your TB blood test are positive, you will be required to have a chest X-ray.

- If your chest X-ray shows no abnormalities and you have no symptoms of TB, you will be cleared by Employee Health.
- If your chest X-ray indicates that there are abnormalities, you will be placed on medical hold and may not attend New Employee Orientation or if you are already working you will be removed from the schedule until medical clearance is obtained.
- Any new hire with a positive TB blood test will be required to be seen and cleared by your local health department or a physician designated by Employee Health unless documentation of prior treatment for TB is provided.
- This referral visit must be completed within the first **15 days** of your employment.
- Employees who do not meet the above requirements will be restricted from work until requirements are completed.

*There will be no cost for the chest X-ray completed at Wellstar.*

***Any charges for a health department visit will be paid by the employee.***

The above has been explained to me by Employee Health and I have been given an opportunity to ask questions.
